

## Ongoing projects and donors:

SAF as a non for profit organization definitely, relies on the support of individual givers, community contribution and donors, to ensure sustainability of the services it provides to the people. Without the help of our committed donors and partners, we would have been unable to serve the people as much as we have been doing.

Ongoing projects	Major Donors
Implementation of BPHS Project (SEHAT) in Jawzjan provinces	
Implementation of BPHS Project (SEHAT) in Nimroz province	
Targeted Supplementary Feeding program (TSFP) in Nimroz province	
Strengthen Provincial HIV Program (SPHP) in Balkh	
HIV&AIDS Prevention Project (Targeted Intervention for IDUs) (Kabul & Balkh)	
Results Based Financing (RBF) in Jawzjan province	
Improving Nutrition of Mothers, Newborns and Children (INMNC) and (TSFP) Projects in Jawzjan.	

## Capacity building & Training activities:

SAF since its establishment has been in great effort to assist its employees at the management and project levels, by providing them with the capacity building opportunities to effectively contribute to the overall work of the organization. As an example, Cascading Skills and Knowledge Transferring (CSKT) is a capacity building program within the BPHS projects of SAF (PCH and SEHAT projects in Faryab, Nimroz and Jawzjan provinces) through which during 2015, 37 regular in-service trainings conducted to 1096 health workers based on their needs.

SAF in 2015, continued implementation of Community Midwifery and Community Nursing (CME and CHNE) programs in Nimroz province, through well-equipped CME and CHNE schools in which, 24 female learners at each school, were being trained by well-trained and skilled trainers as well as clinical instructors, according to the approved national midwifery and nursing curriculum within 24 months.

Apart from that, during 2015 within the nutrition program of SAF, 46 CHWs, 186 FHAG members, 186 NERS members, 186 Mother group members were trained on INMNCN.

Semiannual refresher trainings for all active community health workers (CHWs) of Faryab, Jawzjan and Nimroz conducted in due time.

# Solidarity for Afghan Families

We work for a Developed and Welfare Society

Join hands to contribute in a healthy, prosperous and secure Afghanistan

Website: [www.saf.org.af](http://www.saf.org.af)

## Solidarity for Afghan Families

### Background:

Solidarity for Afghan Families (SAF) was established in October 2005 by a number of innovative, expert and experienced Afghans as a non-governmental, non-political and non-for profit organization with an independent legal identity. SAF aims to serve people and contribute into Afghanistan's rehabilitations.

### Vision:

The vision of the organization is to get to a developed and welfare society for Afghan families.

### Mission:

The mission of the organization is to empower and enable Afghan families to combat against diseases, poverty, social injustice and illiteracy.

### Principles:

SAF follows the following principles

- Independency
- Being non-political
- Justice
- Professionalism
- Transparency and accountability

## Solidarity for Afghan Families

### Human resources:

At present, SAF has (685) staff including (45) technical and managerial experts in the fields of public health, training and development, nutrition, health management, mother and child health, health information management system, mental health & psychiatrics, social science, monitoring & evaluation, laboratory, gender, operational and finance, (550) clinical staff including MDs, nurses, midwives, pharmacist etc, as well as (55) supporting staff. SAF also has 1728 volunteer CHWs, of them 934 are female and 794 are male.

### Coverage area and population:

SAF has working experience in (40) districts of eight provinces namely Faryab, Kabul, Balkh, Jawzjan, Nimruz, Baghlan, Ghazni and Bamyan. SAF is currently providing quality health and nutrition services for the total population of approximately 2.7 Million including 1.2 million Female and 0.6 million children in four provinces of Afghanistan through 11 active health and nutrition projects.

## SAF coverage area in map

### Non BPHS Health Projects:

SAF through implementation of various health related projects such as; Consultancy Services for HIV Prevention and Harm Reduction Services for PWIDs, TFM/ delivery of HIV/AIDS preventive services, INMNC and CB DOTs, in Kabul, Balkh, Jawzjan, Faryab and Nimroz provinces, has considerably strived to contribute to the national efforts for social development and decreasing the prevalence of deadly diseases like TB, HIV and most importantly malnutrition among children and pregnant women.

SAF has successfully completed more than 40 health related as well as social development projects during the last 10 years in 8 provinces of Afghanistan.

## Service Utilization:

SAF by implementation of BPHS and EPHS prides itself for taking part in national efforts of reducing morbidity and mortality among women and children. To reduce infant mortality, SAF during the few last years in its under coverage provinces, provided access to comprehensive prenatal, natal and postnatal care for women; increased the number of children receiving health assessments and follow-up diagnostics and treatment; and provided access to preventive care (including immunizations) and rehabilitative services for children.

During the past years, SAF have got considerable achievements towards increasing accessibility of mothers and women of childbearing age to quality reproductive health services including routine and emergency obstetric care, counseling and modern family planning services.

SAF by provision of preventive and curative nutrition services to the targeted beneficiaries has contributed to a sustainable reduction in nutrition related mortality and morbidity rates among mothers and children under five years old in Afghanistan.
